Raising Environmental Awareness through a Treasure Hunt

Some guidelines

Why a Treasure Hunt?

Co-funded by
the European Union

A treasure hunt is a fun and interactive way to learn . It helps students learn by doing, working together and solving problems.

key points:

- **Learning through play**
- **Teamwork and collaboration**
- **Active participation**

What Do Students Learn?

- How daily actions affect the environment
- How to reduce waste
- How to protect nature and biodiversity
- How to work together to find solutions

How does it work?

Students follow clues and complete environmental challenges:

Each task helps them discover a new sustainability topic. They answer questions, solve riddles and complete small environmental tasks.

Key points

- Clues and questions
- Environmental challenges
- Teamwork
- Learning in a fun way

Other questions can be added for an online treasure hunt.

To organise a physical treasure hunt it is better to give the students some tasks to obtain the next task and reach the end.
